

Conference on Geometry and Topology of Foliations

12 – 16 July 2010

Centre de Recerca Matemàtica
Bellaterra, Barcelona

This conference will be devoted to the study of all aspects of foliations (geometrical, topological, dynamical, analytical, etc.), as well as their connections with other theories. This includes generalisations of foliation problems to the case of non-integrable systems (contact and symplectic structures, confoliations, Engel and Goursat structures), and also group or pseudogroup actions on manifolds.

This event is part of a CRM Research Programme on Foliations running from April to July 2010, and will be a continuation of a series of conferences on foliations organised in recent years. The last ones were held in Lodz (2005), Rio de Janeiro (2007), Krakow (2008), and Santiago de Compostela (2008). All specialists on foliations and related subjects are welcome.

Scientific Committee:

Jesús Álvarez López

Universidade de Santiago de Compostela

Gilbert Hector

Université de Lyon

Marcel Nicolau

Universitat Autònoma de Barcelona

Paweł Walczak

Uniwersytet Łódzki

Robert Wolak

Uniwersytet Jagielloński

Dmitry Bolotov, B. Verkin Institute for Low Temperature Physics

Alberto Candel, California State University Northridge

Aziz El Hacimi Alaoui, Université de Valenciennes

Steven Hurder, University of Illinois at Chicago

Yuri Kordyukov, Russian Academy of Sciences

Rémi Langevin, Université de Bourgogne

Álvaro Lozano Rojo, Euskal Herriko Unibertsitatea

Yoshihito Mitsumatsu, Chuo University

Jorge Vitório Pereira, IMPA

Takashi Tsuboi, University of Tokyo

Paweł Walczak, Uniwersytet Łódzki

Young researchers may apply for a reduced registration fee and lodging grants

Deadline for grant applications: May 10, 2010

Deadline for registration: June 12, 2010
