

# Advanced Course

## ‘‘Compactifying Moduli Spaces’’

**Centre de Recerca Matemàtica**  
**Bellaterra, Barcelona**  
**May 27 to 31, 2013**

### Speakers

Valery Alexeev, *University of Georgia*  
Paul Hacking, *University of Massachusetts Amherst*  
Radu Laza, *Stony Brook University*  
Manfred Lehn, *Universität Mainz*  
Dragos Oprea, *University of California at San Diego*

The advanced course deals with various instances of moduli spaces in Algebraic Geometry, with particular attention to questions related to compactification. It has three goals: to introduce a new generation of students and researchers to these subjects; to collect and survey recent development in the theory; to formulate and disseminate new problems and directions of research.

### Organizing Committee

Gilberto Bini, *Università degli Studi di Milano*  
Emanuele Macrì, *Ohio State University*  
Martí Lahoz, *Université Paris-Sud*  
Paolo Stellari, *Università degli Studi di Milano*

### Scientific Committee

Enrico Arbarello, *Università di Roma*  
Aaron Bertram, *University of Utah*  
Bert van Geemen, *Università degli Studi di Milano*  
Daniel Huybrechts, *Universität Bonn*  
Juan Carlos Naranjo, *Universitat de Barcelona*
