

Title: Data Science and Machine Learning Applications at eDreams ODIGEO.

Pol Naranjo (edreams)

Abstract:

Computational Algebra has a broad variety of applications in Machine Learning. At eDreams ODIGEO, we take advantage of this branch of Artificial Intelligence in order to satisfy the rapidly evolving needs from our customers. We will explain how much Machine Learning is a core part of eDreams ODIGEO operations, building best-in class capabilities.

Additionally, we'll share what a Data Scientist does in our company and how we help freshly graduated joiners to ramp up their Data Science skills.
